

DT-120

FM-Stereo / AM Pocket Receiver

Color

White

Black

Underneath the beautiful white case, the DT-120 AM/FM Compact Pocket Radio is a radio compact in size but offering amazing sensitivity and selectivity with Digital Tuning that will easily tune in and program all of your favorite stations. The DT-120 features 15 preset stations (10 FM, 5 AM), auto search, battery indicator and turns off automatically after 90 minutes to conserve battery life.

Pocket-Sized

The DT-120 is a small AM/FM stereo radio that's small enough to fit in a shirt or jacket pocket, and powerful enough to pull in those distant AM/FM stations. It measures a mere 56 by 93 by 18 millimeters, and weighs only 49 grams, making it portable enough to take anywhere.

Big Features

You get 15 memory presets (and auto scan) to help you zip right to preferred stations. The radio comes with stereo earbuds. DBB (Deep Bass Boost) enhances the sonic low end, while a stereo-mono switch improves reception when needed.

With Digital Tuning and Sangean's traditional radio sensitivity, plus included earbuds, you will be able to enjoy your morning jog, your short trip to the beach, or other outing without missing your favorite AM/FM station if you have the DT-120 pocket radio.

Battery Powered with Auto Shut-Off

The Sangean DT-120 runs on two AAA batteries (not included). A low-battery indicator on the LCD display offers a helpful hint on when it's wise to carry replacements. 90-minute auto shut-off lets you fall asleep to the radio without fear of waking up to dead batteries.

Main Features

- Direct recall 15 station presets (10 FM, 5 AM)
